

Finally Free

D Bm
When words are not enough, Lord, and prophecies they cease
Em Asus

And when all tongues and knowledge pass into the deep
D Bm

Then I'll know for certain, then I'll stand amazed
Em Asus

Then I'll see completely when we're standing face to face

D Bm
And I'm finally free, nothing holding me
G Em A

And I'm running to your arms, I am running to my God
D Bm

And I'm finally free, you are holding me
G

And I'm dancing with my God
Em A

dancing for your love has finally set me free
D (to bridge: G - Bm - G - Bm)

D Bm
You lived that I might know you, you died to set me free
Em Asus

You rose the King of glory, that everyone might see
D Bm

And though you know I love you, you know that I a week
Em Asus

You know that I still love this world from which you're calling me

G /F# Em
I don't know what tomorrow brings ...

D Bm
But I know who holds tomorrow and I know who's holding me
Em Asus

And I know that he will come back, he said to just believe
D Bm

So till the stars they fall from heaven and the light begins to fade
Em Asus

I will worship you forever for your love wont pass away
